## Winter Events & Activities

Ice fishing season opens on West Grand Lake tomorrow, Feb. 1st. While there is good ice in many places, winter's slow arrival this year means you should use extra caution and test the ice frequently. The **Pine Tree Store** and Grand Lake Stream Snowmobile Clubhouse are ready to greet and feed you when you get to town.

Mark Berry will be in Holden Feb. 1st, presenting the West Grand Lake Community Forest Project as part of "**Conservation Projects in the Works**". If you're in the Bangor area, come by the Fields Pond Audubon Center at 6:30. The event is hosted by to Maine Audubon and the Maine Chapter of the Appalachian Mountain Club.

On the calendar this winter are an **Apple Tree Pruning Workshop** on February 12th, and a **Snowshoe Hike and Introduction to Wildlife Tracks** on March 3rd, as part of the Great Maine Outdoor Weekend. Come join us in Grand Lake Stream for outdoor fun!

## Thank You, Supporters & Corporate Partners!

Thank you to everyone who supported Downeast Lakes Land Trust in 2011! Thanks to your support and enthusiasm, we had a great year of improving habitats and recreation opportunities on the Farm Cove Community Forest, offering education programs and community events, and making good progress on the **West Grand Lake Community Forest Project**.

Please also join us in thanking our **2011 Corporate Partners**. These businesses made gifts of operating support in 2011, and will be **featured on our website** through 2012. Please contact us if your business would like to support "Forests and Lakes - For People - Forever"®.

## Video Now Available: The Hill Gould Buck

Last fall, the Outdoor Channel televised a video produced by Bass Pro Shops "Kings of Bucks" about Grand Lake Stream's Hill Gould Buck. The Hill Gould Buck holds the long-standing record as Maine's largest atypical white-tailed deer.

Hill Gould was Grand Lake Stream Guide and DLLT Director Louie Cataldo's grandfather. This video features Louie, and tells how the supporters of Downeast Lakes Land Trust have worked to protect the wildlife habitats and guiding traditions of Grand Lake Stream.

Thanks to Bass Pro Shops, the **video is now available** at [www.downeastlakes.org](http://www.downeastlakes.org).
